*From the appeal for the OLYMPIC TRUCE...*

**We demand:**

1. the change of article 1 of the Olympic Charter, recognizing peace as a fundamental right of people and including the war repudiation as a resolution of international disputes;
2. all the Nations of the Candidate Cities not to be involved in any war during the period from the candidacy to the end of the Games;
3. the suspension of military actions during the winter and summer Olympic and Paralympic Games, under the pain of the exclusion from the games;
4. the subscription and observance, by all Candidate Nations, of main International Treaties concerning Peace, Human Rights and environment; and the refuse of death penalty;
5. the support of the participation of all "Peoples" in the Games and the promotion of the rights of self-determination and citizenship;
6. the Games to be declared Human Property by UNESCO;
7. the extension of the Olympic Truce to the period of the Paralympic Games, in future UN resolutions;
8. the building of a specific Olympic Truce International Agency, composed by young man and women (16 - 26 years old) - Olympic Ambassadors - helped by an Ethical Committee (Peace Noble Prizes, Olympic champions, social movements representatives and personalities with a great experience in the promotion of Peace and Non-violence).
9. the application, by all candidate cities, of a public education program, with the task of developing the Peace processes involved in this new vision of the Olympic Truce. The local Authorities will have to write a social plan that will include the policies that the host Nations will mean to do in favour of poor Countries, environment, youth, women and minorities;
10. the realisation of an Ethic Charter, binding all the sponsors to assume an ethical behaviour and to promote actions in favour of human rights.

## Sport and Art for Peace

PeaceWaves is an "International Education Community" and includes all the schools in the world that have promoted an "Education Olympic Program" or other specific programs on the above mentioned issues.

PeaceWaves programs are inter-generational and have a strong attachment with the local communities. The 50% of the organisation is composed by young people between 14 and 26 years of age.

The aim of PeaceWaves is to ensure that each school - both students and teachers - has the chance to be involved in the Olympic Games and to enlarge their training opportunities and their own curriculum thanks to specific activities, in particular concerning the Olympic Truce considered not only as a suspension from ongoing conflicts but the re-opening of the negotiation considered closed or impossible, but mostly as metaphor of conflicts mediation and sustainable development, for a more responsible freedom and for a citizenship more respectful of nations, people and differences.

### ***Vision and Mission...***

Vision:

Constitute an international network of peace operators: realizing concrete permanent laboratories of Formative Experiences of peace with students, teachers, social operators, public administrators; supported by: schools, universities and local corporations; affording persons to do things that initially they were not in a position to do ("Capability" A. Sen).

Mission:

Work for the peace: like not violent and creative transformation of conflicts.

Sport & Art for Peace: PeaceWaves, when possible, use Sport and Art like cross-field and intergenerational politics instruments for an effective communication.

The Olympic Truce:

The new concept of *Olympic Truce* must be one of the requirements for the fair organization of the Olympic Games and meanwhile an opportunity for a sustainable human development.

A bottom-up concept of the Olympic Truce, meaning not just the breaking of conflicts during the period of the Games, but above all an occasion to promote peace values and human rights development.

Our view of Peace:

The creative and not violent management of conflicts, founded on four pillars: love, justice-forgiveness, freedom and truth to found a common home: democracy realized by the participation of all and everyone.

### ***Sport and Art for PEACE!***

#### ***Kids' Guernica: Art for Peace!***

PeaceWaves and the Kids' Guernica Foundation promote the realization of paints about Peace. Some of the paints realized in the past and yet exhibited were realized in Tunisia, Israel-Palestine, C r o t o n (Immigration Forum 2003), Perugia (Peoples' UN 2003) and Africa (Saharawi People—January 2004).

#### ***Olympic Truce: challenge for sport, opportunity for Peace!***

We aim to have an Olympic Truce built from the below, from the cities and people that will host the Olympic Games (Athens 2004, Turin 2006, China 2008...).

In February '04 we promoted the creation of an intergenerational working group that will plan and organize different actions and events for the Truce. This group is open to everyone who has the wish of activate actions of active citizenship in his own territory and globally.

#### ***Imagine: your photos will open my eyes...***

PeaceWaves is engaged in the spreading of the messages of the exhibition of different pictures made by youngsters from all over the world collected in the "Imagine exhibition".

The visitor of this exhibition is driven in different and far worlds, with emotions, energy and love. The pictures show special or daily activities of the young photographers in their country or villages.
